

Retractor Series

CABLE RETRACTION SYSTEM WITH SPEED CONTROL
FOR CABLE CUBBY ENCLOSURES

The Extron **Retractor Series** is a patented cable retraction and management system for AV applications. Retractor Series modules feature variable-speed cable retraction control and are available in versions to support popular AV and data signal types.

- ▶ Convenient, easy to install cable retraction system for AVEdge™ 100 edge mount enclosures, Cable Cubby® cable access enclosures, and TMK 120 R table mount kits
- ▶ Cables extend up to five feet (152 cm)
- ▶ Holds cable securely in place at a user-defined length
- ▶ Simple push-button release retracts cable into Cable Cubby enclosure after use
- ▶ Precise variable-speed cable retraction control provides more than 50 steps of adjustment between 1.5 and 4.0 seconds
- ▶ Engineered for long life and reliability, and tested to exceed 7,500 cable extension and retraction cycles
- ▶ Available in a variety of commonly used AV and data connectors, including HDMI, Network, and USB-C®

DESCRIPTION

Extron **Retractor Series** is a patented, variable-speed cable retraction and management system designed to work with **AVEdge™ 100**, and **Cable Cubby® Series** and select TouchLink® enclosures as well as the **TMK 120 R Table Mount Kit**. **Retractor Series** modules support most AV and data signal types, including HDMI, Audio, Network, USB, and USB-C. Cables extend up to three feet (90 cm) and are held securely in place at the desired length. The cables retract at the press of a button, with integrator-adjustable retraction speed control for smooth operation in both horizontal and vertical mounting orientations. Extron **Retractor Series XL** is also available for applications where cable extension of five feet (152 cm) is appropriate.

Extron offers the industry's widest selection of USB-C Retractor modules. The Retractor USB-C Power module features USB-C to USB-C delivery of up to 100 watts of power to peripheral devices, as well as select laptops. For USB-C sources that support DisplayPort Alt Mode, the Retractor USB-C - HDMI module provides connection to HDMI displays and peripheral devices. The Extron Retractor USB-C - DisplayPort module provides connectivity between USB-C sources that support DisplayPort Alt Mode and a DisplayPort device. The Retractor USB-C - HDMI and Retractor USB-C - DisplayPort modules support resolutions up to 4K/30 and pass EDID, HDCP, and audio information between source and display.

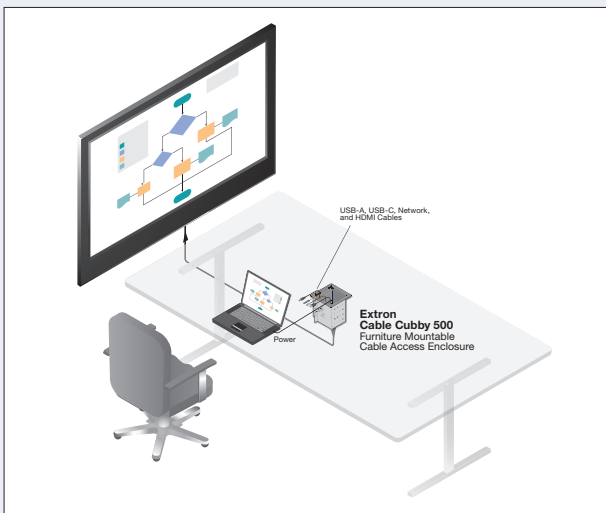

The Retractor USB-C Pro and Retractor USB-C Pro 8K modules provide connectivity between USB-C sources that support resolutions up to 8K/30. Data rates up to 5 Gbps. EDID, HDCP, and audio information also pass between the devices. They deliver up to 60 watts of power for charging.

COMMON FEATURES

- ▶ Convenient, easy to install cable retraction system for **AVEdge 100 edge mount enclosures**, **Cable Cubby Series** and select TouchLink enclosures, and **TMK 120 R Table Mount Kits**
- ▶ Cables extend up to five feet (152 cm) – Also provides a pigtail for connecting to other AV products located beneath the mounting surface.
- ▶ Holds cable securely in place at a user-defined length
- ▶ Simple push-button release retracts cable into enclosure after use
- ▶ Precise variable-speed cable retraction control provides more than 50 steps of adjustment between 1.5 and 4.0 seconds
- ▶ Engineered for long life and reliability, and tested to exceed 7,500 cable extension and retraction cycles
- ▶ Flexible installation options – Retractor can be installed under a table or other work surface in either a vertical or horizontal position.
- ▶ Available in a variety of commonly used AV and data connectors, including HDMI, Mini DisplayPort, DisplayPort, VGA, PC Audio, Network, and USB

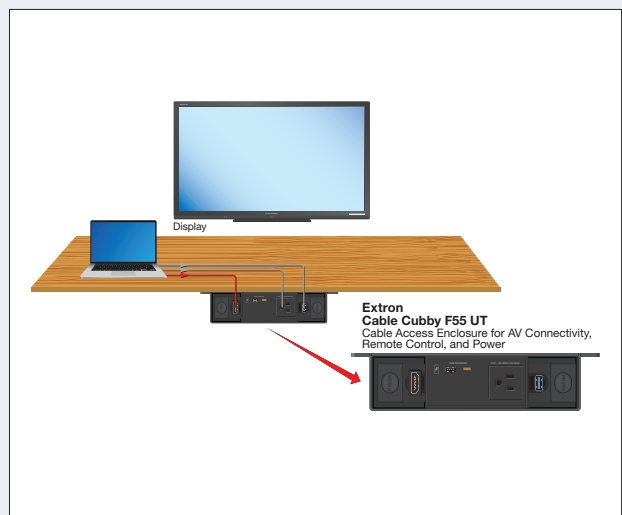

IN-TABLE APPLICATIONS

Extron **Cable Cubby Series** enclosures provide an elegant, sophisticated solution for the integration of AV connectivity, AC power, and control into almost any furniture style, from simple portable lecterns and desks to custom conference room and board room tables. Cable Cubby Series enclosures are available in a variety of sizes to support up to eight Retractor modules.

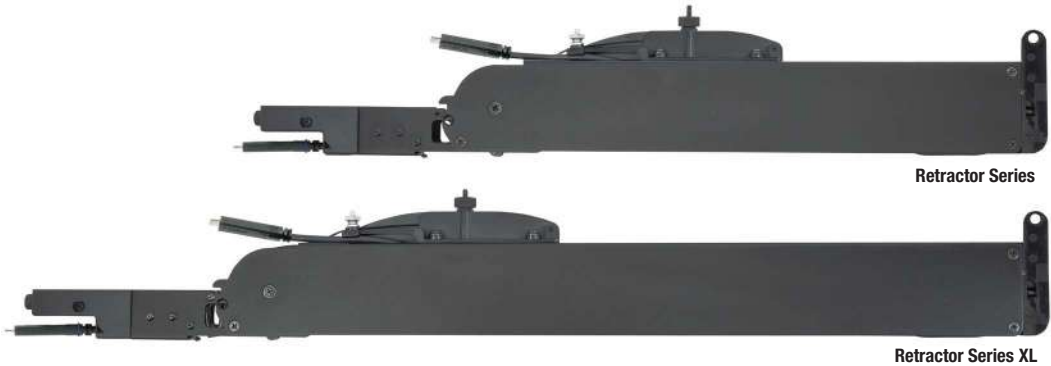

UNDER TABLE APPLICATIONS

Extron **Cable Cubby F55 UT** is a modern, clean, and discreet solution to integrate AV technology beneath furniture surfaces. The modular design allows for fast assembly and serviceability. Half-size and double-size modules can also be integrated. The enclosure supports two Extron Retractor or Retractor XL modules.

AVAILABLE RETRACTOR SIGNAL TYPES

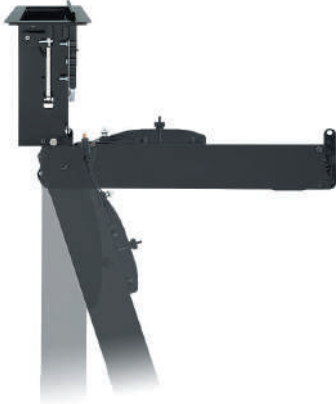

Integrator-Adjustable Speed Control

Retractor Series modules feature a precise, variable-speed cable retraction control that provides more than 50 steps of adjustment between 1.5 and 4.0 seconds. The cable extension and retraction mechanisms are separate, eliminating unnecessary strain on the cable for reliability and long life.

Flexible Mounting Options

When used with a Cable Cubby® enclosure, Retractor Series modules can be installed vertically or horizontally, or at an angle of 30 degrees off-vertical, to fit a wide range of applications and furniture types.
