IMPORTANT SAFETY INSTRUCTIONS

WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all components are properly assembled and installed using the instructions provided.

WARNING: Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all components attached to the CMA365 does not exceed 250 lbs (113.4 kg)

- The weight capacity of the CMA365 may be LIMITED to the lowest weight capacity of any other component or accessory used within the mounting system.

WARNING: Use this mounting system only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.

WARNING: Never operate this mounting system if it is damaged. Return the mounting system to a service center for examination and repair.

WARNING: Do not use this product outdoors.

IMPORTANT ! : The CMA365 accessory is designed for installation to a supporting 1" -3" truss or pipe.

TOOLS REQUIRED FOR INSTALLATION

PARTS

ASSEMBLY AND INSTALLATION

WARNING: Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

1. Place two U-bolts (B) over supporting 1" - 3" truss or pipe. (See Figure 7)

Figure 1

2. Raise truss plate (A) up and insert U-bolts through holes in truss plate. (See Figure 2)

NOTE: If installing truss plate (A) to pipe, ensure that pipe fits into notches in plate. (See Figure 2)

Figure 2

3. Loosely install 3/8" nuts (E) and 3/8" washers (D).
4. Level mount and tighten nuts (E).

5. Install 1-1/2" NPT or NPSM following ANSI/ASME B1.20.1 (Schedule 40, 0.154" minimum thickness aluminum - ASTM B221) threaded extension column (not included) into threaded collar until tight, with a minimum of four threads engaged. (See Figure 3)

Figure 3

6. Using 5/32" hex key (F) and 5/16-18 x 1/4" set screw (C), secure CMA365 to threaded extension column. (See Figure 3)
7. Complete installation following appropriate mount installation instructions.
