

KRAMER

C-RVM/RVM

RCA Composite Video Cable

Kramer's C-RVM/RVM is constructed of RG-59 cable with male RCA connectors at each end. It offers outstanding quality, durability, and high-performance for any composite video or mono audio signal.

FEATURES

- **Quality Construction** - Constructed from RG-59 cable for transparent performance with composite video signals.
- **High-Quality Connectors** - Molded connectors are yellow to match video connectors on typical equipment.
- **Varied Selection of Lengths** - Available in version of 3 to 150ft (0.9 to 45.7m).
