

USB2.0 Active Extension Cable A/B, 20m

Part No.: 42763

Description

- 20 metre USB 2.0 Active Repeater Lead
- Plug & Play - no special software installation required
- Connectors: Type A USB Male to Type B USB Male
- Ideal for direct device connection
- 2 year warranty

The LINDY USB Active Cable uses built-in active electronics to extend the cable length of a USB 2.0 device.

The cable's unique slimline design allows easy installation, due to the active electronics that are housed inside a small cable mould - an advantage over other active USB leads which use special, bulky connectors.

Compatible with USB 2.0 and USB 1.1 equipped PCs and Macs.

Please note: This product is not ideal for Bus powered devices, we recommend using this cable with self powered devices.

Technical details

- Chipset: FE1.1S
- Active chipset housing 8m from the USB Type A Connector
